

Project Name: _____ Part Number: _____ Date: _____
--

Features

- Provides standard data models for OPC Data Objects
- Transmits and receives data from Dialog® System
- Communicates with up to 10 WLC-4150 Lighting Control Units
- Multiple data points for relays, dimmers, presets, occupancy, etc.
- Easy to navigate interface

The Dialog OPC Server is a software application that acts as a protocol converter. The OPC Server will communicate with the WLC-4150 Lighting Control Unit, and translate the data into a standard-based OPC format. OPC compliant applications such as an HMI (Human Machine Interface), historian, spreadsheet, trending application, etc. can connect to the OPC Server and use it to read and write device data.

The Dialog OPC Server software is stored on the Global Web Server.

PART NUMBER	DESCRIPTION
Dialog OPC Server	Dialog OPC Data Objects software

OPERATING SYSTEM	<ul style="list-style-type: none"> • Windows 7 Installation
DATA POINTS	<ul style="list-style-type: none"> • Relays • Dimmers • Groups • Presets • Photocells • Occupancy Sensor Status
